PROFILE

Passionate Full Stack Web Developer.

Very energetic when it comes to development and loves to work in teams!

I started coding as a hobby back in 2016 and have been hooked ever since. Finally decided on taking a bootcamp to make a profession out of my favourite activity. Always eager to learn new things. I'm currently looking for a job with a lot of variety.

EXPERIENCE

denoland FRESH contributor
August 2022 — Present

Fresh is **an open-source full-stack modern web framework for JavaScript and TypeScript developers**. It is designed to create high-quality, performant, and personalized web applications. Fresh 1.0 was released on June 28, 2022.

denoland/fresh: The next-gen web framework. (github.com)

Full Stack Web Development Bootcamp Graduate at UpLeveled GmbH
April 2022 — August 2022

An immersive full-time web development bootcamp, in which we created multiple projects with an up-to-date tech stack.

Markdown Messenger, Project
June 2022 — August 2022

A direct messaging service similar to WhatsApp/Telegram/Discord. Messages are rendered as Markdown, allowing for a super high level of customization. You could go as far as sending a full-blown website.

michael-pfister/markdown-messenger: online messaging service (github.com)

Developing Hobby Projects
September 2016 — Present

Covers projects such as windows applications, web servers, websites, and simple image recognition AI.

EDUCATION

General Qualification for University Entrance, De la Salle Schule Strebersdorf, Vienna
September 2012 — July 2020

Not Completed: Bachelor of Science, Fachhochschule Wiener Neustadt, Wiener Neustadt
August 2021 — January 2022
